

SAP recognizes

Frédéric GIUSTINI

is certified as

SAP Certified Associate - Low-Code/No-Code Developer - SAP Build

This certification verifies that you possess the ability to perform low-code and no-code development with SAP Build. As low-code/no-code developer, you are able to build advanced apps and SAP extensions using SAP Build Apps, consume SAP backend data and build your own data models. You can create automations and processes with SAP Build Process Automation and integrate them with other applications using APIs.

Issued:

10.6.25

Expires:

11.6.26
