# SAP Partner 2025 certification requirements

March 2025
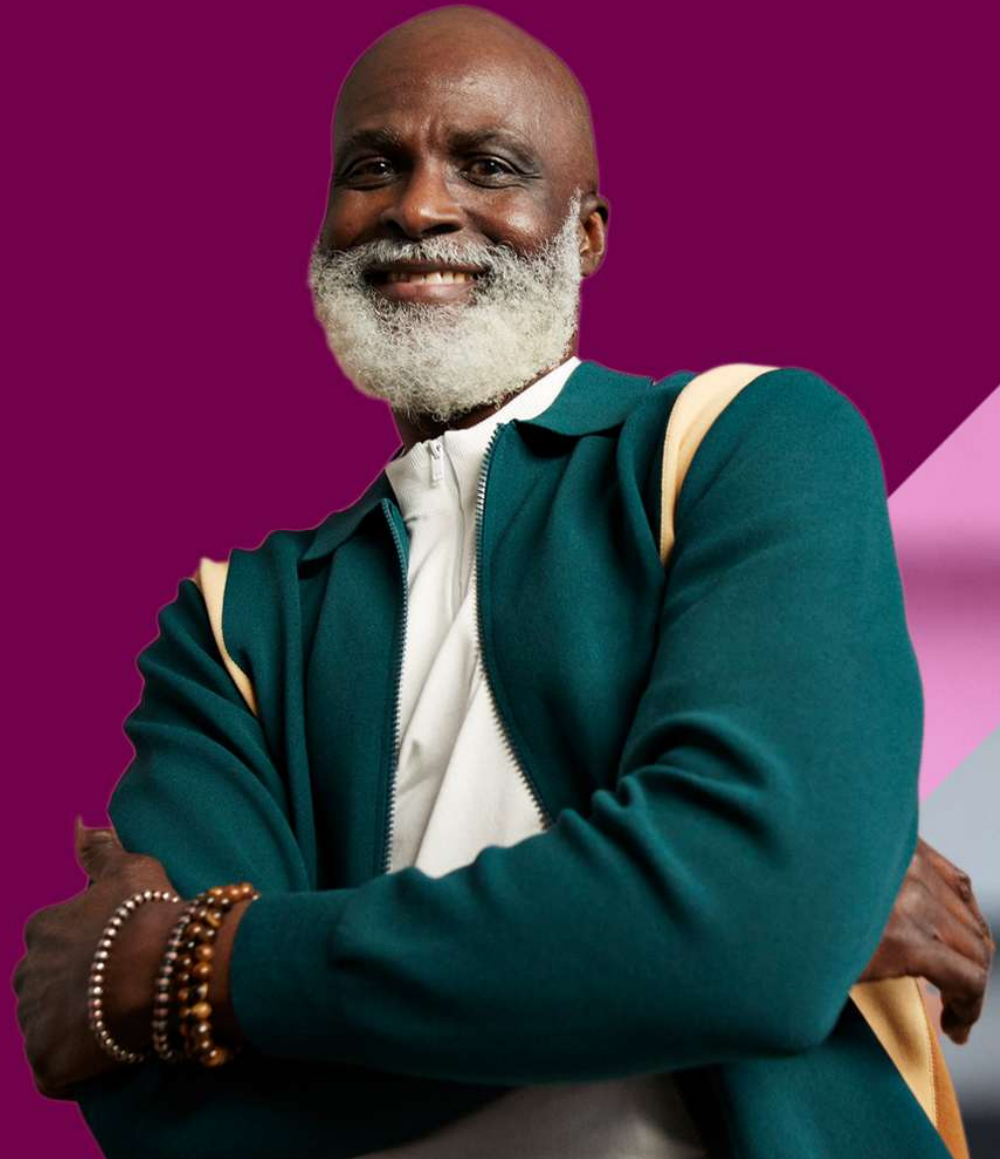

With the 2027, end-of-maintenance deadline for SAP S/4HANA on premise, there is a critical need – and tremendous opportunities – for **partners with** SAP Certifications

**85%** of current RISE with SAP implementations have been delivered by partners

**10k** more customers are expected to move to cloud solutions in 2025 and beyond

Customers continually need services and support, creating long-term revenue streams for partners

# Certifications deliver a positive impact on the bottom line

Outcomes include improved delivery quality, faster time-to-value, better adherence to clean core principles, fewer support incidents, and greater toolchain adoption across all RISE with SAP projects.
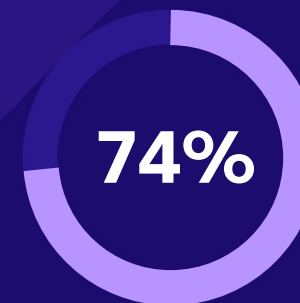

**38%** Improved service levels

**35%** Increase in problem solving

**25%** Faster job completion

**74%** Better app modernization

# Get and stay certified with
# SAP Learning Hub and SAP Certification

## Get certified

### 90+ certifications available for key roles and topic areas

**SAP Learning Hub** subscriptions include four SAP Certification exam attempts per subscriber. Exams are proctored online and take 1-3 hours to complete.

**SAP Certification exam, two attempts** provides a streamlined way to get certified for 1-2 SAP solutions.

## Stay certified

### Maintain certifications with annual assessments*

SAP Certifications must be renewed annually.

**SAP Learning Hub** subscriptions include short, non-proctored quizzes with unlimited attempts, only for the delta knowledge of the latest product updates to stay certified.

*An SAP Learning Hub subscription is required to access stay certified assessments.

# A new way to get certified
# SAP Certification exam, two attempts

## Two SAP Certification exam attempts
With one license, you can choose to take an exam in two different certifications or have a second chance to successfully complete one certification.

→ **Certification-relevant self-paced learning**
Access all the self-paced learning needed to upskill and achieve a certification in a chosen SAP solution.

→ **10 hours of access to certification-relevant practice systems**
Experiment and learn in real SAP environments – without risking live projects.

→ **Single-user license**
Once assigned, licenses cannot be transferred to ensure dedicated access and usage tracking.

# SAP Certification framework:
## Major changes

**Enhanced get and stay certified program**
covering all roles with a 12-month validity at parity with SAP employee enablement

**New certifications**
including credentials with fewer learning hours, flexible exam options, and a focus on foundational knowledge and strategic topics.

**Hands-on system capabilities**
are an integral component of certification and a prerequisite for successful achievement.

### Legacy framework: based on theoretical knowledge

Previous certification exams tested for theoretical knowledge, disconnected from non-technical learning with lifelong validity.

Learning → Proctored multiple choice exam → Certification

**All one-off certifications will expire by April '25. HY1 2025 focus is on get and stay certified transition.**

**VS.**

### 2025 framework: expanded scope and requirements

New path includes a hands-on skills test and expands to non-technical roles (sales, pre-sales, CEE) and 12-month validity with delta testing.

Learning → Proctored multiple choice exam including test for completion of hands-on component → Certification

**12-month validity and a yearly delta exam ensure skills are maintained and up-to-date.**

**Assessments in SAP Learning Hub to stay certified offer a much quicker and simpler way to maintain certifications.**

## SAP Certification expiry dates:

**All SAP certifications obtained before April 2024 will expire on March 31, 2025.**

To stay certified, complete quick non-proctored assessments before March 31, 2025, to extend certified status for another 12 months. If a certification expires, the individual will need to retake the full SAP Certification exam.

**SAP Certifications are valid for 12 months from the date a learner passed the exam.**

To extend the validity, complete assessments to stay certified before the expiry date listed in the 'Certification' section of the My Learning page.

# Partner commitment on SAP Certifications in 2025:
## Key milestones to boost project success and stakeholder value
